

Automotive Trades **Apprenticeship training that just *makes sense***

Develop skilled, confident apprentices with flexible, industry-led training designed around the needs of your workshop.

Our Apprentice Coordinators work alongside you and your apprentice, providing practical guidance, personalised support, and tailored training throughout the apprenticeship journey.

- Dedicated Apprentice Coordinator
- Workshop tailored training
- Regular workplace visits and ongoing support
- Weekly evening classes
- Flexible block courses to suit your workload
- Practical workplace-based assessment
- Year-round training.

***Skilled apprentices. Less disruption.
Real workplace results.***
